SUMMARY

I am a skilled full-stack developer with experience in building high-performance web applications using Next.js, Node.js, and MongoDB. I led scalable solutions at Divaca Tech and founded SaveVest, implementing secure, user-friendly frontends and efficient backends.

WORK EXPERIENCE

Divaca Tech   **Sep 2024 - Present**

- Developed full-stack apps with Next.js, Node.js, MongoDB, improving performance.
- Led the design and implementation of scalable RESTful APIs.
- Collaborated with cross-functional teams (designers, project managers, and QA) to deliver projects on time.

SaveVest - Founder   **Aug 2024 - Present**

- Led the design and implementation of scalable RESTful APIs, increasing system integration efficiency by 40%.
- Built a secure and scalable backend using Node.js and Express, allowing the platform to handle 1,000+ concurrent users with minimal downtime.
- Founded and developed SaveVest, a full-stack web application that helps users save money by offering personalized savings tips and budgeting tools.
